Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2-4, 8, 9, and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 2, line 4, there appear to be some words missing, as that line is not clear. In claim 5, line 2, it appears that "positioned" should be -- positions --. Claim 8 appears to be incomplete. Claim 9 is in dependent form, but the claim number from which it depends is missing.. In claim 13, line 1, there is no antecedent basis for "said pilot drill bit. It appears that claim 13 should depend from claim 6, and in the art rejections below, this has been assumed.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5, 7, 8, and 11-14 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by the European reference (Haussmann et al.).
5. Claims 1-8 and 11-14 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by the Japanese reference (Masabumi).

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

8. Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Haussmann et al. or Masabumi.

Neither Haussmann et al. nor Masabumi disclose providing patches for the hole drilled. The Examiner, however, takes official notice that patching drywall by providing a patch to fit a hole is a well known method, and it would have been obvious to a person having ordinary skill in the art at the time the invention was made to provide circular patches to patch the holes drilled by the hole saw of either Haussmann et al. or Masabumi.
